

Do **NOT** use PCards for the following Vendors

There are many vendors that will accept a PO as a form of payment. They will invoice the County the balance due. Below are a few examples. Check with the Company before the purchase to see if they have an invoicing system and/or accept POs. Most vendors will invoice, as it saves them the 3% charge for swiping a credit card.

***Please note the vendors highlighted in **blue**. There are cards available to check out in purchasing for these vendors. ***
