ZONING- CONDITIONAL USE PERMIT REQUEST

The determination as to whether a conditional use permit will be granted is subjective to a degree. The Zoning Board of Adjustments may act on issues discussed in the zoning ordinance and criteria checklist when making decisions in these matters.

REQUEST: Conditional Use Permit approval for Heritage Farms NWA to use parcel # 001-11943-000 for open cut red dirt mining operations, and to use parcel # 001-11940-001 for the dirt pit haul road.

CURRENT ZONING: Project lies within the County's Zoned area (Agriculture/Single-Family Residential 1 unit per acre).

PLANNING AREA: This property is not located within a planning area, it is located solely within Washington County's jurisdiction.

FUTURE LAND USE: No Future Land Use has been designated at this location.

QUORUM COURT DISTRICT: District 7, JP Sam Duncan FIRE SERVICE AREA: Wedington Rural VFD SCHOOL DISTRICT: Farmington

INFRASTRUCTURE: Water- Washington Water Authority Telephone- AT&T Electric- Ozarks Electric Cable- N/A Natural Gas- N/A

BACKGROUND/ PROJECT SYNOPSIS:

The applicant is requesting Conditional Use Permit approval for Heritage Farms to transition existing agricultural/residential zoned property to open cut red dirt/clay/gravel extraction operations. The property is owned by Heritage Farms NWA. Construction of the haul road has already begun.

This operation proposes the construction of a haul road and red dirt pit operations- extraction of red dirt, clay, and creek gravel. The proposed haul road from Greenburrow Road will connect to the proposed open cut mining area. The proposed mining area is split up into four phases, with progression from one phase to the next based on market demand. The phases are as follows: Phase 1- 6.16 acres Phase 2- 6.06 acres Phase 3- 3.8 acres Phase 4- 3.1 acres Total area to be mined- 19.12 acres

The proposed hours of operation are 7:30am – 5:00pm, Monday – Friday, with 3 to 5 employees, and approximately 75 trucks/day in the spring & summer months. (Please see applicant's Letter of Explanation)

### **TECHNICAL CONCERNS:**

The Conditional Use Permit is subjective in nature. Its intent is to assess the proposed development's compatibility with the existing uses in the surrounding area. The Conditional Use Permit criteria for approval are as follows (**with Planning Staff comments in bold text**):

#### Sec. 11-200. –Criteria for allowance of conditional uses.

- a) The Board shall hear and decide requests for a conditional use and may authorize such if it finds:
1. That a written application has been filed with the Planning Office and the appropriate fee has been paid. **Application is on file and fee has been paid.**
  2. That the applicant has provided proof that each property owner as set out in section 11-204 has been notified by return receipt mail. **Planning Staff notified neighbors within ½ mile of the subject property, by certified mail, within 30 days of the hearing date.**
  3. That adequate utilities, roads, drainage and other public services are available and adequate or will be made available and adequate if the use is granted. **The exiting conditions, coupled with the proposed conditions of approval regarding utilities, roads, and drainage, will ensure adequate infrastructure is in place for this development.**
  4. That the proposed use is compatible with the surrounding area. **There are other red dirt pits and a quarry in the area within a few miles. However Planning Staff has received a substantial number of public comments in opposition to this proposal based on several criteria including (but not limited to) safety, noise, dust, traffic, property values, wildlife, water quality, and stormwater runoff. Many residents of this neighborhood feel this proposed use is not compatible with the surrounding area. However, the applicant feels this proposed use is compatible with the area based on Fayetteville's growth toward the west, and the demand for red dirt as a building material.**
  5. That the establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare. **The neighbors have made the argument that this proposed use will be detrimental to their public health, safety, comfort, and general welfare.**
  6. That the conditional use will not be injurious to the use and enjoyment of other property in the surrounding area for the purposes already permitted, nor substantially diminish and impair property values within the surrounding area. **With the applicant's estimated 75 trucks/day (in & out), many neighbors have commented in opposition to this proposed use, believing it will substantially diminish their ability to enjoy their property, as well as impair property values in the area. At the time of this Staff Report, 39 public comment forms have been submitted citing diminished property values as a concern. Neither the applicant nor the neighbors have submitted any quantitative data on property value fluctuations related to open cut red dirt mines.**
  7. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding area for uses permitted in the zone. **Public comments have been submitted citing fear of decreased property values, which may deter future development in the surrounding area.**
- b) If it is determined that there exist conditions that could be imposed by the Board that would significantly lessen the impact of the aforesaid, then the Board has the power to impose said conditions which shall be specifically set forth.

#### Fire Issues:

1. Turning radii at the entry point is 38'.
2. Knox Box or Knox lock is needed to open the gate and the office.
3. Approved fire apparatus turnaround area – needs to be shown on the plan.
4. 75,000 lb (H-20) compaction on the road up to the office.
5. Must have address at the road and on the building where it is easy for emergency responders to identify.
6. Maximum grade of the fire lane shall not exceed 10%, as per Arkansas state fire code.

**Septic:**

1. No comment unless they are doing a building (with a restroom).

The applicant is not proposing a restroom at this time, so the Health Department's comments have been addressed.

**Utilities**

**Electric/Gas/Cable/Phone:**

No water, gas, or cable utilities are proposed.

There will be electricity and phone service in the scale office. No comments/requirements were submitted by Ozarks Electric or AT&T.

**Washington Water Authority**

Although no water service is proposed with this application, Washington Water Authority provided the following comments/requirements for the November 13<sup>th</sup> Technical Review meeting:

1. Property is served from a 4" water main located running along Greenburrow Rd., WC-662. The current application states that water service is not being requested as part of the LSD; if this changes in the future, please submit a Request for Water Service Form ([www.washingtonwater.org](http://www.washingtonwater.org)).
2. The nearest Fire Hydrant to the project site is located at the intersection of Greenburrow Rd., WC-662 and HWY 16, or approximately 0.7 miles to the NW of the project site. Flow rate at this hydrant is 325 gpm @ 20 psi.
3. Due to the heavy equipment traffic generated by this LSD, the existing water main running under the proposed access drive should be encased with a steel encasement.

The plans show 60 feet of 8-inch steel encasement running beneath the haul road where it connects to Greenburrow Road. Washington Water Authority's requirement is addressed.

**Roads/Sight Distance/Ingress-Egress/Parking:**

The Washington County Road Department submitted the following comments/requirements for the November 13<sup>th</sup> Technical Review meeting:

1. Pave the county road (Greenburrow Rd., WC-662) from the haul road entrance south to Elkhorn springs Rd.

Paving the road is a condition of approval. However, laying asphalt is not practical during the cold time of the year. So, if this proposed development is approved, paving of the road may have to wait until a warmer time of the year.

Sight distance was provided by the Road Department and was determined with GPS points.

Sight distance to the north (left hand turn out of the haul road) is 431.54 ft.

Sight distance to the south (right hand turn out of the haul road) is 421.71 ft.

Sight distance is adequate.

The on-site employees will park their vehicles in the area near the scale office, which is at a lower elevation than Greenburrow Rd. The parking area will not be visible from the public road.

**Drainage:**

The Washington County Contracted Engineer has reviewed each set of plans and each Stormwater Drainage Report. Based on the review of the latest submittal the County Contracted Engineer still has the following questions:

1. What is happening that the length of flow is increasing 270 ft from Pre- to Post?

2. Is it possible to add a table with flows leaving the pond after “detained” with associated water surface elevations? Ultimately, need to verify that 1 vertical foot of freeboard is provided between the 100 year maximum water surface elevation and the top of berm.
3. Is 1167.0 the maximum water surface elevation that occurs in the pond at the 100 year event?

These questions, and any additional questions that arise, must be adequately addressed/answered by the applicant’s engineer. This is a condition of approval.

**Environmental Concerns:**

At this time, no stormwater permit is required by Washington County; however, the applicant must comply with all rules and regulations of the Arkansas Department of Environmental Quality (ADEQ).

**Signage/Lighting/Screening Concerns:**

Any outdoor lighting must be shielded from neighboring properties. Any lighting must be indirect and not cause disturbance to drivers or neighbors. All security lighting must be shielded appropriately.

**Arkansas Department of Environmental Quality (ADEQ):**

ADEQ comments/requirements were received on November 26<sup>th</sup>, nearly 2 weeks after the Technical Review meeting. The comments/requirements are as follows:

1. As this site is greater than 5 acres, they will need to obtain a Construction Stormwater Permit prior to beginning construction. The forms are found at the links below:  
[https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/construction/arr150000\\_noi.pdf](https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/construction/arr150000_noi.pdf)  
[https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/construction/arr150000\\_swppp\\_template\\_large\\_site.pdf](https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/construction/arr150000_swppp_template_large_site.pdf)  
[https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/construction/arr150000\\_inspection\\_form.pdf](https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/construction/arr150000_inspection_form.pdf)
2. Once the construction is complete, the mine will require a discharge permit for the stormwater. The mine may be eligible for coverage under the Stormwater Industrial General Permit. However, **this facility is near an ecologically sensitive spring (Elkhorn Springs) and a section of the Illinois River that is designated as an Ecologically Sensitive Water and impaired by chlorides and sulfates. Please note that additional BMPs may be required to be protective of these waters, or the Department may require coverage under an individual permit.** The application forms for the Industrial General Permit are found at the links below:  
[https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/industrial/arr000000\\_notice\\_of\\_intent.pdf](https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/industrial/arr000000_notice_of_intent.pdf)  
[https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/industrial/arr000000\\_2014\\_igp\\_permit\\_swppp\\_template.pdf](https://www.adeq.state.ar.us/water/permits/npdes/stormwater/pdfs/industrial/arr000000_2014_igp_permit_swppp_template.pdf)

Full compliance with ADEQ’s permitting requirements is a condition of approval.

**Access Easement crossing the subject property**

Concerns were raised by the neighbors to the south regarding the access easement used to access their property. The applicant has constructed the haul road across the private road (access easement), creating a condition that to travel north-to-south along the easement a vehicle will have to cross over the haul road, which is built up to a higher elevation.

Planning Staff has mapped the easement and found that the location of the access road was properly described in the legal description. The easement document appears to have been properly recorded with the Circuit Clerk’s office.

Although it is not in the Washington County Land Development Code, Planning Staff urges the property owners to come to an amicable, mutually favorable agreement. Otherwise, the issue will be a civil matter between property owners and should be settled in court.

## COMPATIBILITY CONCERNS:

### Surrounding Uses:

The surrounding uses are single family residential and agricultural, with very little Light Commercial, as well as at least 3 other quarries/red dirt pits (the closest is under reclamation in accordance with ADEQ's requirements, meaning it's lifespan as an active quarry is over).

The subject property doesn't have any permanent structures at this time.

Staff feels that the applicant's request is compatible with the surrounding property densities, since this application doesn't propose to split the property any smaller.

### County's Land Use Plan (written document):

According to the County's Land Use Plan,

## SECTION III. PHYSICAL DEVELOPMENT

### A. LAND USE CONSIDERATIONS

#### 4. INDUSTRIAL

The chief goals for industrial development are:

- a. Provision of sites which are located adjacent to major thoroughfares or other adequate transportation facilities; **This proposed site, although not adjacent to a major thoroughfare, is 1.8 miles from a major thoroughfare. If approved, that entire distance will be paved.**
- b. Allocate land in sufficient quantity, where infrastructure exists, or will exist, so that industrial growth can be accommodated to benefit both industry, and the county. This will ensure that industrial land is protected from encroachment by non-industrial uses; **Heritage Farms NWA, the owner of this property, owns in excess of 200 acres at this location. The tax revenue generated by this proposed development will benefit the county and its residents. However, any future development other than Agricultural or Single Family Residential at a density of 1 residential unit/acre must receive Conditional Use Permit approval and ratification by the Washington County Quorum Court, so no expansion of this development (if approved) will be allowed without amending the CUP & HI-LSD permits. Single-family residential and/or Agricultural uses are allowed by right in the county zoning code.**
- c. Provide for ample utilities and services to support industrial development. **The current proposal doesn't require provision of additional utilities. Each proposed industrial development must go through Washington County's planning process, must be approved by the Planning Board, and ratified by the Washington County Quorum Court.**

### Future Land Use Plan

Washington County's Future Land Use Plan shows no designation for this area.

### SITE VISIT:

A site visit has been conducted by planning staff. Sight distance from the haul road location appears to be adequate.

### **NEIGHBOR COMMENTS/CONCERNS:**

In accordance with High-Impact Large Scale Development regulations all neighbors within one-half mile of the boundary of this property were notified by certified mail of this proposed project. The notification letters were mailed out 30-days before the Planning Board meeting. The address list Staff uses to mail public notices is generated by our in-house database system, which sources information from the Assessor's parcel data. The initial list was 96 addresses. Then, any additional comments received from addresses outside the 0.5 mile notification buffer, or from additional people living at the same address, are added to the list. Planning Staff has received 137 public comments, all in opposition to this proposed dirt pit.

Opposed comments cite safety, noise, dust, traffic, property values, wildlife, water quality, and stormwater runoff as the main concerns, but many other concerns are included as well.

The attached Neighbor Comment Map shows 1/4, 1/2, and 1 mile radius around the subject property. All of the properties that touch or are inside the 1/2 mile radius are automatically added to the notification list. Opposed public comments were received from all of the properties shaded in red. Planning Staff didn't receive any public comment forms from the properties shaded in blue. Additionally, the properties shown with orange stripes are the other quarry/mining operations in the vicinity; some are active, some are inactive.

Public comment forms, as well as the applicant's letters to the neighbors, were all emailed to the Planning Board members on February 6, 2019. Staff will update the Planning Board at the meeting if any additional comments are received.

(See attached neighbor comment map)

### **STAFF RECOMMENDATION:**

Due to the High-Impact nature of this proposed use, in addition to the lack of quantifiable data to inform the process of assessing compatibility, **Staff withholds a recommendation for the proposed Heritage Farms Conditional Use Permit.** Staff urges the Planning Board to listen to the opposition from the members of the community claiming the proposed use is not compatible based on the perceived impact this dirt pit may force upon them. And listen to the applicant's claim that the proposed use is compatible based on the need for red dirt as a building material due to Fayetteville's growth.

Once both sides of the issue have addressed the board, weigh the two sides to determine for yourselves if the proposal has met the compatibility requirements.

### **Fire Conditions:**

1. All entrance drives and fire lanes (including turnaround area) must be paved, or constructed of base material compacted to support 75,000 lbs in all weather conditions.
2. Maximum turning radii is 38' at the entry point and all areas within the fire lane.
3. A Knox Box or Knox lock is needed to open the gate and the office.
4. Approved fire apparatus turnaround area – needs to be shown on the plan.
5. 75,000 lb (H-20) compaction is required on any fire lane areas if they are not paved.
6. Must have address at the road and on the building where it is easy for emergency responders to identify.
7. Maximum grade of the fire lane shall not exceed 10%.

### **Sewer/Septic/Decentralized Sewer Conditions:**

1. If a septic system is desired in the future the applicant must comply with the regulations set forth by the Arkansas Department of Health.
2. No parking is allowed on any portion of the septic system including the alternate area. (No overflow parking either).

**Road Conditions:**

1. Any work to be completed in the County Road Right-of-Way requires a permit from the Road Department prior to beginning work. Any tile that may be needed must be sized by the Road Department. The Road Department may be reached at (479) 444-1610.
2. Greenburrow Road must be paved, from the haul road south to Elkhorn Springs Road.

**Drainage Conditions:**

1. All comments/questions/requirements by the County Contracted Engineer must be addressed.
2. The County Contracted Engineer had comments/questions/requirements after reviewing each set of plans. Additional questions/comments/requirements may be forthcoming as the Engineer reviews subsequent submittals.

**Environmental Conditions:**

1. At this time, no stormwater permit is required by Washington County; however, the applicant must comply with all rules and regulations of the Arkansas Department of Environmental Quality (ADEQ).

**Arkansas Department of Environmental Quality (ADEQ)**

2. Once the construction is complete, the mine will require a discharge permit for the stormwater. The mine may be eligible for coverage under the Stormwater Industrial General Permit. However, this facility is near an ecologically sensitive spring (Elkhorn Springs) and a section of the Illinois River that is designated as an Ecologically Sensitive Water and impaired by chlorides and sulfates. 3. Full compliance with ADEQ is required.

**General Utility Conditions:**

1. Any damage or relocation of utilities will be at the expense of the owner/applicant.

**Washington Water Authority:**

1. Water main crossing under the haul road must be sleeved in steel encasement.
2. The applicant has designed a field welded encasement for the water main/access road crossing. Add note "All field welds must be conducted under the supervision of a WWA representative" to sheet C-6. Once the main is exposed, if the existing water main alignment is not conducive for a field welded encasement based on horizontal or vertical deflection, the main will need to be rerouted in a similar fashion at the owner's expense.

**Signage/Lighting/Screening Conditions:**

1. Signage cannot be placed in the County Right-of-Way.
2. Any outdoor lighting must be shielded from neighboring properties. Any lighting must be indirect and not cause disturbance to drivers or neighbors. All security lighting must be shielded appropriately. Please refer to the diagram in the staff report attachments.

**Planning Conditions:**

1. A water truck shall be onsite whenever the pit is in operation. Water will be applied to the pit area and the haul road as needed for dust abatement. (as per note in the plans)
2. No blasting is allowed.
3. Hours of operation will be limited to 7:30am to 5:00pm, Monday through Friday, with Saturdays by appointment only.
4. Fire extinguishers must be located in the scale office and on all pieces of heavy equipment located onsite.
5. Final slope of the fire lane shall be determined by the project engineer, in situ, at Final LSD. The maximum grade shall not exceed 10.0%.
6. Commercial mining operations may not begin before the haul road and Greenburrow road are paved.
7. Greenburrow road shall be paved from the haul road south to Elkhorn Springs road.
8. The paving of Greenburrow road will be done to the county road standard.
9. Full compliance with all applicable federal, state, and local laws is required.
10. All stormwater drainage concerns raised by the County Contracted Engineer must be adequately addressed, then reviewed and approved by the County Contracted Engineer.
11. The on-site employees will park their vehicles in the area near the scale office, which is at a lower elevation than Greenburrow Rd. The parking area will not be visible from the public road.

**Standard Conditions:**

1. Pay engineering fees (not calculated yet) within 30 days of project hearing. Any extension must be approved by the Planning Office.
2. Any further splitting or land development not considered with this approval must be reviewed by the Washington County Planning Board/Zoning Board of Adjustments.
3. This CUP must be ratified by the Quorum Court before commercial operations may begin.
4. It is the applicant's responsibility to contact the Planning Office when inspections are needed.
5. All conditions shall be adhered to and completed in the appropriate time period set out by ordinance.
  - o This project requires additional review (High Impact Large Scale Development), and therefore, the applicant must receive High Impact Preliminary Large Scale Development approval within 12 months of this CUP project's ratification, otherwise the Conditional Use approval is null and void.

**ARKANSAS COURT OF APPEALS**

DIVISION IV  
 No. CV-18-631

WASHINGTON COUNTY,  
 ARKANSAS; QUORUM COURT OF  
 WASHINGTON COUNTY,  
 ARKANSAS; AND HONORABLE  
 JOSEPH K. WOOD, IN HIS OFFICIAL  
 CAPACITY AS COUNTY JUDGE  
 APPELLANTS

V.

TERRY PRESLEY  
 APPELLEE

Opinion Delivered March 6, 2019

APPEAL FROM THE WASHINGTON  
 COUNTY CIRCUIT COURT  
 [NO. 72CV-17-426]

HONORABLE MACKIE M. PIERCE,  
 JUDGE

AFFIRMED

**N. MARK KLAPPENBACH, Judge**

Terry Presley applied for a conditional-use permit to operate a wedding and event center on property he owns in Washington County. The permit was denied by the Washington County Quorum Court. Presley appealed to the Washington County Circuit Court, which granted summary judgment to Presley. Washington County, its quorum court, and its county judge now appeal. We affirm.

Presley filed his application for a conditional-use permit in August 2016 and thereafter worked with the Washington County Planning Office to meet the requirements for such a permit as outlined in the Washington County Code. Although the property was zoned for residential and agricultural uses, the Washington County Planning Board and Zoning Board of Adjustments (the board) may authorize other uses upon a finding of the following:

(1) That a written application has been filed with the Planning Office and the appropriate fee has been paid.

(2) That the applicant has provided proof that each property owner as set out in section 11-204 has been notified by return receipt mail.

(3) That adequate utilities, roads, drainage and other public services are available and adequate or will be made available and adequate if the use is granted.

(4) That the proposed use is compatible with the surrounding area.

(5) That the establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.

(6) That the conditional use will not be injurious to the use and enjoyment of other property in the surrounding area for the purposes already permitted, nor substantially diminish and impair property values within the surrounding area.

(7) That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding area for uses permitted in the zone.

Washington County, Ark., Code § 11-200(a) (2017). Although some neighbors opposed the permit, the board eventually approved it with conditions in November 2016. The neighbors then appealed to the quorum court.

At the quorum court meeting, Washington County planner Nathan Crouch spoke about the project and concerns that had been addressed with different county officials. Crouch said that the planning staff recommended approval of the permit with conditions. Following Crouch's presentation, Presley and his sister, who planned to operate the event center with him, answered questions from the quorum court members. Neighbors then spoke in opposition to the permit. Finally, members of the court explained their decisions, cited factors from the code, and voted 11-1 to deny the permit.

Presley appealed to the Washington County Circuit Court as allowed by Arkansas Code Annotated section 14-17-211 (Repl. 2013). He subsequently moved for summary judgment, arguing that the required factors had been proved and there was no genuine issue of material fact. He attached the affidavits of both Crouch and Juliet Richey, the county's director of planning through November 2016. Appellants responded to the motion, arguing that the quorum court, not the planning staff or the board, had the ultimate authority to approve or deny a permit request. The circuit court granted summary judgment to Presley upon finding that the evidence was uncontroverted and that appellants had failed to meet proof with proof. The court found that the planning staff had determined that the application was compliant with the relevant criteria and that their affidavits were unrefuted. The court directed the county to issue the permit to Presley.

The standard of review in reviewing a grant of summary judgment is well established:

Summary judgment is to be granted by a trial court only when it is clear that there are no genuine issues of material fact to be litigated and the moving party is entitled to judgment as a matter of law. Once a moving party has established a *prima facie* entitlement to summary judgment, the opposing party must meet proof with proof and demonstrate the existence of a material issue of fact. On appeal, we determine if summary judgment was appropriate based on whether the evidentiary items presented by the moving party in support of its motion leave a material fact unanswered. This court views the evidence in a light most favorable to the party against whom the motion was filed, resolving all doubts and inferences against the moving party. Our review is not limited to the pleadings, as we also focus on the affidavits and other documents filed by the parties. After reviewing undisputed facts, summary judgment should be denied if, under the evidence, reasonable men might reach different conclusions from those undisputed facts.

*Benton Cty. v. Overland Dev. Co.*, 371 Ark. 559, 564, 268 S.W.3d 885, 888–89 (2007) (quoting *Heinemann v. Hallum*, 365 Ark. 600, 603–04, 232 S.W.3d 420, 422–23 (2006) (citations omitted)).

Appellants argue that genuine issues of material fact exist based on the “highly controverted” evidence. They point to the numerous concerns voiced by neighbors who opposed the permit and the code criteria cited by quorum court members who voted to deny the permit. Appellants contend that it was unnecessary to file counteraffidavits in response to the motion for summary judgment because the pleadings filed with the circuit court included the entire record of the proceedings before the planning board and the quorum court, which plainly reveals genuine issues of fact regarding whether the code criteria were met. Appellants also claim that Presley’s offered proof was inconsistent because an opinion regarding compatibility contained in Crouch’s affidavit was absent from Richey’s affidavit.

Appellants correctly note that even when a party fails to respond to a motion for summary judgment or fails to present proof showing a genuine issue of material fact, summary judgment may not be warranted. When the proof supporting a motion for summary judgment is insufficient, there is no duty on the part of the opposing party to meet proof with proof. *Inge v. Walker*, 70 Ark. App. 114, 15 S.W.3d 348 (2000). In *Inge*, we held that the motion for summary judgment itself presented a material question of fact because a statement in the appellee’s answer to an interrogatory attached as an exhibit to his motion was contradicted by a statement in his answer to the complaint. In *Buie v. Certain Underwriters at Lloyds of London*, 79 Ark. App. 344, 87 S.W.3d 832 (2002), excerpts from

depositions attached to the moving party's motion for summary judgment presented irreconcilable factual circumstances and demonstrated a material question of fact.

Appellants contend that, as in *Inge* and *Buie*, Presley's motion for summary judgment itself, along with the other pleadings on file, presented genuine questions of material fact. The cases relied on by appellants, however, are distinguishable because they involved proof properly before the circuit court for consideration in summary-judgment proceedings. Summary judgment shall be granted "if the pleadings, depositions, answers to interrogatories and admissions on file, together with the affidavits, if any, shows that there is no genuine issue as to any material fact and that the moving party is entitled to a judgment as a matter of law on the issues specifically set forth in the motion." Ark. R. Civ. P. 56(c)(2). "When a motion for summary judgment is made and supported as provided in this rule, an adverse party may not rest upon the mere allegations or denials of his pleadings, but his response, by affidavits or as otherwise provided in this rule, must set forth specific facts showing that there is a genuine issue for trial. If he does not so respond, summary judgment, if appropriate, shall be entered against him." Ark. R. Civ. P. 56(e). Here, neither the concerns voiced by the neighbors in writing and at the quorum court meeting nor the members' stated reasons for voting to deny the permit were submitted under oath or in the form of an affidavit. See *Am. Gamebird Research Educ. & Dev. Found., Inc. v. Burton*, 2017 Ark. App. 297, 521 S.W.3d 176 (reversing summary judgment because circuit court improperly considered letter that was not under oath). While Rule 56 also allows consideration of the pleadings, appellants have not pointed to any statement contained in a pleading, as defined by Rule 7(a) of the Arkansas Rules of Civil Procedure.

Presley presented proof in the form of Crouch's affidavit that all the criteria had been met for the conditional-use permit to be approved. Appellants presented no proof to rebut this proof in their response to the motion for summary judgment, and they point to no other proof that was properly before the circuit court for consideration pursuant to Rule 56. We are not persuaded that the fact that statements made in Crouch's affidavit are absent from Richey's affidavit makes Presley's proof contradictory. For these reasons, we affirm the order of the circuit court.

Affirmed.

HARRISON and GLOVER, JJ., agree.

ORDINANCE NO. 2019-

APPROPRIATION ORDINANCE

BE IT ENACTED BY THE QUORUM COURT OF THE COUNTY OF WASHINGTON, STATE OF ARKANSAS, AN ORDINANCE TO BE ENTITLED:

AN ORDINANCE REDUCING \$41,694 FROM THE UNAPPROPRIATED RESERVES IN THE COURT COSTS & FINES FUND BUDGET (5800) FOR 2018 AND APPROPRIATING SAID \$41,694 TO THE OTHER PROFESSIONAL SERVICES LINE ITEM IN THE BUILDINGS & GROUNDS BUDGET (10000108-3009) FOR 2018.

WHEREAS, renovations were made to the 5th floor of the Washington County Courthouse to create a courtroom for the Seventh Division Court; and,

WHEREAS, the expenditures for said renovations were paid out of the Buildings & Grounds Budget for 2018; and,

WHEREAS, the Other Professional Services line item in the Buildings & Grounds Budget for 2018 was negative in the amount of \$41,694 at the end of 2018 due to said renovations; and,

WHEREAS, money must be appropriated from the Court Costs & Fines Fund Budget (5800) for 2018 to pay for the expenses incurred by the Buildings & Grounds Budget for 2018 in the amount of \$41,694.

NOW, THEREFORE, BE IT ORDAINED BY THE QUORUM COURT OF WASHINGTON COUNTY, ARKANSAS:

ARTICLE 1. That \$41,694 is reduced from the unappropriated reserves in the Court Costs & Fines Budget (5800) for 2018 and said money is appropriated to the Other Professional Services line item in the Buildings & Grounds Budget (10000108-3009) for 2018.

ORDINANCE NO. 2019-

BE IT ENACTED BY THE QUORUM COURT OF THE COUNTY OF WASHINGTON, STATE OF ARKANSAS, AN ORDINANCE TO BE ENTITLED:

AN EMERGENCY ORDINANCE AMENDING ORDINANCE 2019-04 TO ALLOW ORDINANCES RATIFYING A CONDITIONAL USE PERMIT TO BE REFERRED DIRECTLY TO THE QUORUM COURT.

WHEREAS, the Quorum Court desires to amend Ordinance 2019-04 to exempt ordinances ratifying a conditional use permit from the requirement that they be considered by a committee before being considered by the Quorum Court so as to not cause any unnecessary delay to applicants of conditional use permits.

NOW, THEREFORE, BE IT ORDAINED BY THE QUORUM COURT OF WASHINGTON COUNTY, ARKANSAS:

ARTICLE 1. Washington County Ordinance 2019-04 is hereby amended as follows:

ARTICLE 4. An Ordinance to ratify a conditional use permit granted or denied by the Planning and Zoning Board shall not be referred to a committee, but shall be referred directly to the Quorum Court for consideration.

ARTICLE 2. EMERGENCY CLAUSE. It is hereby determined that it is in the best interest for this ordinance to be effective immediately; and, the general health, safety, and welfare of the citizens are affected in that it is vital that the above committees be legally created by ordinance for the effective performance of the Quorum Court pursuant to A.C.A. §14-14-904(d); therefore, an emergency is declared to exist and this ordinance shall be and is effective from the date of its passage.
