## **River's Edge RV Park & Stables CUP**

**The Planning Board/Zoning Board of Adjustments approved the River's Edge RV Park & Stables Conditional Use Permit, with conditions, request on June 6, 2019 (5 members voted "in favor", 0 members voted "against", 2 members were absent).**

Owner/Applicant Ray Dotson is requesting CUP approval for the use of an RV Park in the unincorporated area of Washington County, to the east of Springdale at the corner of Blue Springs Village Road (WC-386) and Ar. Hwy 412. All plans and calculations have been provided by Milholland Engineering.

This CUP request is to allow for the use of an RV park and stables on approximately 13 acres of a 50.68 acre parcel. This area combines the features of rural pastureland, while also allowing for the utility accommodations of an urban area, as there is a neighborhood to the west of the proposal. As horse stables are considered agricultural, and allowed by right, this CUP and subsequent Large Scale Development are permitting the RV Park only.

A total of 70 (seventy) notices were mailed to surrounding property owners within 300 feet of the applicant's project parcel. There were two neighbor responses opposing this proposal.

This project was somewhat contentious, as 2 neighbors spoke in opposition to the project.

**The Planning Board/Zoning Board of Adjustments approved the River's Edge RV Park & Stables Conditional Use Permit, with conditions, request on June 6, 2019 (5 members voted "in favor", 0 members voted "against", 2 members were absent). With the following conditions:**

### **Water/Plumbing:**

1. It appears as if a private plumbing system is being proposed for the development. Based on the layout and configuration of piping there appears to be two (2) cross connections that will not be allowed. The first cross connection is east of the proposed Bath House and the other is located just east of the unnamed county road. Please be advised that all existing unapproved water lines must be disconnected from the public water system.
2. Attached for your review and use please find the April 10, 2019 letter to Mr. Mel Milholland regarding the installation of a 2-inch water meter for the project and a design memo developed by McGoodwin, Williams and Yates on November 29, 2016.
3. The Springdale Water Utilities makes no claims, analysis or determinations for fire protection systems serving this facility. The project engineer is solely responsible for meeting all requirements as it pertains to fire protection for this project.
4. Field locate and verify the exact location of existing public water facilities and depict this location on the plat. The location of facilities appears to be from online GIS sources rather than through field location.
5. Engineer shall provide utility easements along the south property line of sufficient width to accommodate existing public water facilities. Please contact the Springdale Water Utilities for requirements and final acceptance of easements.
6. The owner/developer will be responsible for the cost of any required adjustments to the existing water and sewer facilities due to site grading.
7. Please be advised that the review herein is for the purposes of general conformance to the requirements of Springdale Water Utilities as it pertains to the platting of property and does not constitute approval of plans to convert existing unaccepted water systems or their components. Any acceptance to existing components of the unaccepted water systems that were installed many years ago shall be by review of this department and the Arkansas Department of Health.

### **Roads/Sight Visibility/Ingress-Egress/Parking Conditions:**

There were no comments received by the Washington County Road Department.

**Environmental Conditions:**

At this time, no stormwater permit is required by Washington County; however, the applicant must comply with all rules and regulations of the Arkansas Department of Environmental Quality (ADEQ).

**Standard Conditions:**

1. Pay neighbor notification mailing fees (\$284.90) within 30 days of project approval. Any extension must be approved by the Planning Office (invoice was mailed to applicant on 05/24/19).
2. Pay engineering fees within 30 days of project approval.
3. Any further splitting or land development not considered with this approval must be reviewed by the Washington County Planning Board/Zoning Board of Adjustments.
4. Lots that are over one-half acre in size will need to be addressed after the home location is known.
5. This CUP must be ratified by the Quorum Court.
6. It is the applicant's responsibility to contact the Planning Office when inspections are needed.
7. All conditions shall be adhered to and completed in the appropriate time period set out by ordinance.
  - o This project requires additional review (Final Large Scale Development), and therefore, the applicant must have completed all improvements within thirty-six (36) months of the Preliminary Large Scale Development approval.
