ER Mobile Services CUP

The Planning Board/Zoning Board of Adjustments DENIED the ER Mobile Services CUP request on August 11, 2021 (2 members voted “in favor”, 4 members voted “against”, 1 member was absent).

The applicant, Elly Rivera, is requesting conditional use permit (land use) approval to operate a mechanic shop specializing in semi-trucks and dump trucks. The applicant’s request is proposing ten (10) parking spaces, hours of operation from 6 am to 6 pm, Monday-Saturday with two (2) employees, with a driveway approximately 500 foot long.

A pull-through workshop building already exists on the property.

The zoning is for Agricultural and Single Family Residential uses with a maximum density of one (1) residential unit per acre.

The project parcel is inside Tontitown’s planning area.

The subject property is located on the northern side of Harmon Rd, near the intersection at Arbor Acres Rd, WC-52.

There are no residential structures on the property at this time.

At the August 11, 2021 Special Planning Board meeting, six (6) members of the surrounding community spoke in opposition of the proposal. They voiced concerns about potential noise from the semi-trucks and air compressors, trucks and other vehicles are an eye-sore, the industrialization of their small quiet community, and just the general “I don’t like it”.

On an adjacent property to the north, a type of fabrication shop exists. It was discussed how the majority of the current “clutter” and “eye sore” was from this property and not the property to be utilized in the CUP.

Planning Board Member Philip Humbard made the motion to deny the CUP. Board Member Lisa Miller seconded. Board Members Joel Kelsey, Philip Humbard, Jay Percy, and Lisa Miller voted to deny the CUP. Board members Delbert Helm and Loren Shackelford voted in favor of the CUP.

The applicant has stated they will appeal the Planning Board’s decision.

ORDINANCE NO. 2021-

APPROPRIATION ORDINANCE

BE IT ENACTED BY THE QUORUM COURT OF THE COUNTY OF WASHINGTON, STATE OF ARKANSAS, AN ORDINANCE TO BE ENTITLED:

AN ORDINANCE AMENDING ORDINANCE 2013-13 TO CHANGE CONDITIONS FOR JACKSON HWY TOWER SITE CUP.

WHEREAS, on March 21, 2013, the Washington County Quorum Court passed the Ordinance 2013-13 to ratify a conditional use permit (“CUP”) for Jackson Hwy Tower Site CUP (“Jackson Tower CUP”) granted by the Planning and Zoning Board; and

WHEREAS, the Jackson Tower CUP enabled the applicant to construct a self-supporting, lattice-type wireless communications tower with a maximum height of 270 feet; and,

WHEREAS, the Planning Board’s maximum height restriction of 270 feet was imposed as a condition for the granting of the Jackson Tower CUP; and,

WHEREAS, the Quorum Court desires to amend Ordinance 2013-13 to increase the maximum height restriction to 310 feet so that the Jackson Hwy Tower Site can extend the range of the communication towers capacity for 911 communications.

NOW, THEREFORE, BE IT ORDAINED BY THE QUORUM COURT OF WASHINGTON COUNTY, ARKANSAS:

ARTICLE 1. The Quorum Court hereby amends Ordinance No. 2013-13, page 2 of the Jackson Hwy Tower Site CUP, to read:

Planning Conditions:

1. A copy of the Federal Communications Commission (FCC) approval letter must be submitted to Staff prior to tower operation.

42 2. Must be an approximately 250 foot tall self-supporting wireless communications
43 tower facility that, with the addition of lights and a lightening rod, could increase
44 the overall height to approximately ~~270~~ 310 feet.

Modern Mission CUP

The Planning Board/Zoning Board of Adjustments unanimously approved Modern Mission Conditional Use Permit (with conditions) on March 7, 2013.

Staff does not expect any appeals on this CUP and recommends ratification of the project.

Fayetteville

b. Modern Mission CUP

Conditional Use Permit Approval Request

Location Address: 3452 E. Joyce Blvd. Fayetteville, AR 72703

10.0 acres and 1 unit (expansion) / Proposed Land Use: commercial

Project #: 2013-022 Planner: Courtney McNair e-mail at cmcnair@co.washington.ar.us

The owner of this property is TCB Ventures (Travis Fink). The applicant is Gray Rock, LLC (Dirk Thibodaux). This property is just outside of the Fayetteville City Limits off of Joyce Blvd.

Modern Mission CUP requested to expand the approved Outdoor Laser Tag CUP project (project 2011-011). The site currently has a residential structure that was approved for use as office space with CUP 2011-011 with an existing septic system, a gravel parking area, and the play field area.

The applicant asked to add a large structure (11,680 sq ft) with parking lot improvements for use as an indoor facility for the current operations.

The applicant has stated that this addition will not increase the total number of players (10-30 were approved with 2011-011), and that no additional lighting or noise will be added. The applicant has also stated that the hours of operation will not change (generally no play past dark). All conditions placed on project CUP 2011-011 must be followed.

Staff received four "in favor" comments from neighbors.

Most issues were regarding fire safety, and screening. The applicant has addressed most of these issues with the latest CUP proposal; further details can be addressed at the Preliminary Large Scale Development Phase.

The Planning Board/ Zoning Board of Adjustments unanimously approved the project with the following conditions:

Water/Plumbing/Fire Conditions:

1. Water improvements may be required at Preliminary Large Scale Development (LSD).
2. Onsite hydrant required (all points of the structure must be within 500 feet of the hydrant). This hydrant is shown on the plans. The applicant will be responsible for contacting the City of Fayetteville for the requirements to add this hydrant.
3. At Preliminary LSD, Architectural Plans of the building layout that will show exit lights, emergency lights, and fire extinguishers per fire code. This must show clear access to the building exits (maximum 75 feet travel distance).
4. The parking and access must meet ADA requirements.
5. Fire lanes are required within 150 feet of all points of any building. They must support 75,000 lbs in all weather conditions.

Sewer/Septic/Decentralized Sewer Conditions:

1. The existing septic system was found to be adequate and the permit was approved by the Health Department on 2/12/2013.
2. No parking is allowed on any portion of the septic system including the alternate area. (No overflow parking either).

Roads/Sight Visibility/Ingress-Egress/Parking Conditions:

1. The Washington County Road Department requires an apron to connect entrance drives to the County Road. The apron(s) must be paved (asphalt or concrete) and at least 20' x 20'. This must be completed prior to Final LSD/Final Plat/operating. Any extensions must be approved by the Washington County Road Department Superintendent.
2. All entrance drives and parking areas must support 75,000lbs in all weather conditions.
3. Any work to be completed in the County Road Right-of-Way requires a permit from the Road Department prior to beginning work. Any tile that may be needed must be sized by the Road Department. The Road Department may be reached at (479) 444-1610.

Drainage Conditions:

1. A full drainage study is required at Preliminary LSD.

Environmental Conditions:

1. At this time, no stormwater permit is required by Washington County; however, the applicant must comply with all rules and regulations of the Arkansas Department of Environmental Quality (ADEQ).

Utility Conditions:

1. Any damage or relocation of utilities will be at the expense of the owner/applicant.
2. Additional comments may be received at the Preliminary LSD phase of this project.

Signage/Lighting/Screening Conditions:

1. Signage cannot be placed in the County Right-of-Way.
2. No additional outdoor lighting is proposed.
3. The current building that is used as a sign/entrance must be moved out of the WC ROW. It may still be used as signage as long as it remains out of the ROW. No additional signage may be placed without review.
4. Screening is required along the East property line (extending at a minimum from North of the building –to the Northern edge of the fire lane, and along the parking area) in order to help provide a buffer between this proposed commercial building and the adjacent residences. The screening is required to be layered (not just a line of trees, but groupings and variation) and a screening plan (written and drawn) will be required at Preliminary LSD to be approved by Planning Staff. The screening must be installed at a reasonable size (a minimum of 4 feet in height at installation) and maintained properly. These details will be required in the screening plan.

5. Landscaping along WC 553 should also be included in the planting plan.

Standard Conditions:

1. All conditions of approval for 2011-011 must be adhered to with this plan.
2. All outdoor storage must be screened with opaque material. (this includes anything stored under the building overhangs)
3. ~~Pay neighbor notification mailing fees (\$90.00) within 30 days of project approval. Any extension must be approved by the Planning Office (invoice was emailed to applicant on 2/27/13).~~
4. Any further splitting or land development not considered with this approval must be reviewed by the Washington County Planning Board/Zoning Board of Adjustments.
5. This CUP must be ratified by the Quorum Court.
6. It is the applicant's responsibility to contact the Planning Office when inspections are needed.
7. All conditions shall be adhered to and completed in the appropriate time period set out by ordinance.
 - o This project requires additional review (Large Scale Development), and therefore, the applicant must submit for Preliminary Large Scale Development project review within 12 months of this CUP project's ratification.

Jackson Hwy Tower Site CUP

The Planning Board/Zoning Board of Adjustments unanimously approved Jackson Hwy Tower Site Conditional Use Permit (with conditions) on March 7, 2013.

Staff does not expect any appeals on this CUP and recommends ratification of the project.

Jackson Hwy Tower Site CUP is requesting a CUP to allow the construction of an approximately 250 foot tall, self-supporting, lattice-type wireless communications tower facility (with the addition of lights and a lightning rod, the overall height could increase to approximately 270 feet). The tower would be approximately 14' wide at the base and approximately 3' wide at the top.

The parcel acreage is 18.21 acres on which the applicant is leasing a 30' wide access and utility easement and a 75'x75' area on which the tower would be located. The site would access Rheas Community Road next to an immediately adjacent, existing, off-site utility easement.

The land owners are Ricky and Lisa Frye; the applicant is Dave Reynolds of Smith Communications, LLC. The property is located north of Lincoln at the intersection of Rheas Community Road and N. Jackson Hwy.

The nearest residence is located 614.45' from the tower's base and is owned by the Fryes (the land owners who are leasing the tower to Smith Communications). The applicant, Dave Reynolds, has stated that there are no towers within a 1-mile radius on which collocation could occur.

The tower may be visible from Rheas Community Road but would be partially screened by the dense tree cover and hill that slopes sharply upward south of Rheas Community Road. The applicant has stated that FAA regulations require, at the top of the tower, a white pulsing light during day hours and a low intensity red pulsing light during night hours. "Sight marker lights" would be required at 150' elevation on the tower. However, Mr. Reynolds reported that all lights would be shielded from the ground and shine upwards and not downwards.

The applicant submitted voice coverage maps showing the need for better cellular coverage in this area of the County. The Washington County 911 Director, John Luther, is in support of additional cellular infrastructure in rural Washington County because it would enhance access to emergency services.

The primary issue with this project was a written neighbor complaint concerning safety of cellular radiation and devaluation of adjacent land values. No neighbors spoke in favor or opposition to this project at the Planning Board meeting.

Radiation: Safety due to cellular radiation cannot legally be considered, per Federal law PUBLIC LAW 104-104—FEB. 8, 1996, TELECOMMUNICATIONS ACT OF 1996.

Land Value: The applicant provided a statement from an Appraiser that states that it had not been her experience that cell towers negatively affected property values of adjacent properties.

The Planning Board/ Zoning Board of Adjustments (5-in favor, 0-against, 2-absent) approved the project with the following conditions:

Planning Conditions:

1. A copy of the Federal Communications Commission (FCC) approval letter must be submitted to Staff prior to tower operation.
2. Must be an approximately 250 foot tall self-supporting wireless communications tower facility that, with the addition of lights and a lightening rod, could increase the overall height to approximately 270 feet.
3. Compound must be generally sized as presented (75'x75').
4. This CUP will apply only to the lease area and related easement as presented and not to the entire 18.21 acres.
5. Proper Circuit Clerk-filed easement documents shall be recorded for the proposed access and utility easement.
6. The NEPA report shall be updated to reflect the actual height (250 to 270 feet) and location of the tower as presented to Staff.

Water/Plumbing/Fire Conditions:

1. An access drive constructed 26 feet in width from Rheas Community Road to the tower is required for emergency vehicle access.
2. All entrance drives and parking areas must support 75,000lbs in all weather conditions.
3. The proposed 30 foot wide double panel gate can be kept locked with a normal padlock. However, if emergency access is needed, emergency personnel will cut off the padlock to gain access.
4. The easement granting access and utility access from the tower site to Rheas Community Road shall be at least 26 feet wide and have 13 feet 6 inches of unobstructed vertical clearance.

Roads/Sight Visibility/Ingress-Egress/Parking Conditions:

1. Any work to be completed in the County Road Right-of-Way requires a permit from the Road Department prior to beginning work. Any tile that may be needed must be sized by the Road Department. The Road Department may be reached at (479) 444-1610.
2. The Washington County Road Department requires an apron to connect entrance drives to the County Road. The apron must be paved (asphalt or concrete) and at least 20' x 20'. This must be

completed prior to operation. Any extensions or additions within the county right of way must be approved by the Washington County Road Department Superintendent.

3. The easement drive must be graded/designed in such a manner that gravel does not wash onto Rheas Community Road WC# 68.

Utility Conditions:

1. Ozarks Electric: Any relocation of an existing line or extension of a line to feed this property will be at the owner's/applicant's expense.
2. Any utility work in the County Road ROW must be approved and permitted by the Road Department. Call 444-1610 for details.

Signage/Lighting/Screening Conditions:

1. Signage cannot be placed in the County Right-of-Way.
2. The light at the top of the tower shall be as described by the applicant – a pulsing (non-strobing) light (white during the day and red during the night) producing approximately the equivalent of a 100 watt light bulb.
3. No additional lighting, on the ground, is approved with this CUP.

Standard Conditions:

1. Any further splitting or land development not considered with this approval must be reviewed by the Washington County Planning Board/Zoning Board of Adjustments.
2. This CUP must be ratified by the Quorum Court.
3. Must adhere to all Washington County Communication Tower Ordinance Standards.
4. Must proceed through Washington County Communication Tower Administrative Approval process.
5. It is the applicant's responsibility to contact the Planning Office when inspections are needed.
6. If all Administrative Tower requirements cannot be met, this tower will have to undergo full Tower Review by the Planning Board; utilities and other agencies would then review this project.
7. All conditions shall be adhered to and completed in the appropriate time period set out by ordinance.
 - This project requires additional review; the applicant must submit for Administrative Tower Review within 12 months of this CUP project's ratification.

EMERGENCY APPROPRIATION ORDINANCE

BE IT ENACTED BY THE QUORUM COURT OF THE COUNTY OF WASHINGTON, STATE OF ARKANSAS, AN ORDINANCE TO BE ENTITLED:

AN ORDINANCE APPROPRIATING \$5,392,750 FROM THE AMERICAN RESCUE PLAN ACT FUND (3046) TO THE PASS THROUGH PAYMENTS LINE ITEM IN THE 2022 AMERICAN RESCUE PLAN ACT BUDGET (30460568.3014) FOR THE WASHINGTON COUNTY RURAL FIRE ASSOCIATION.

WHEREAS, self-contained breathing apparatuses (“SCBA”) are a critical component firefighters utilize when combating fires; and,

WHEREAS, SCBA’s provide breathable air to firefighters during extreme life-threatening conditions; and,

WHEREAS, the majority of those apparatuses currently in use by rural fire departments are in excess of twenty years old and are not compliant with modern safety standards set forth by the National Fire Protection Association; and,

WHEREAS, because older model apparatuses are incompatible with the newer model designs, emergency “buddy breathing” systems can only be utilized if the same model apparatuses are deployed; and,

WHEREAS, this incompatibility between model designs makes piece meal purchases of SCBA equipment problematic; and,

WHEREAS, modern SCBA models certify that wearers are protected against chemical, biological, radiation, and nuclear (“CBRN”) contaminants- including COVID-19- because they include air-purifying respirators; and,

WHEREAS, the Washington County Rural Fire Association requests funding to permit the wholesale purchase of new, National Fire Protection

42 Association compliant SCBAs, which ensures the safety of local firefighters during the
43 course of their work.

WHEREAS, the Washington County Regional Ambulance Authority (“Central EMS”) provides ambulance services throughout most of Washington County; and,

WHEREAS, the Covid-19 pandemic has disrupted some of the vital services provided by Central EMS and has precipitated a twenty-two percent increase in call volume, which exacerbates the workload burden on both Central EMS employees and equipment; and,

WHEREAS, as a result of the increased burden caused by the Covid-19 pandemic, Central EMS is in immediate need of a two new ambulances and two dozen new power load stretchers; and,

WHEREAS, new equipment will help to ensure Central EMS’s ability to provide high quality emergency medical services to communities throughout Washington County without sacrificing response time or quality of care; and,

WHEREAS, the Quorum Court desires to assist Central EMS in acquiring equipment necessary to meet the Covid-19 pandemic demand.

NOW, THEREFORE, BE IT ORDAINED BY THE QUORUM COURT OF WASHINGTON COUNTY, ARKANSAS:
