Subject: Vote Centers

Thank you for sponsoring the Ordinance for Vote Centers. This plan is for the Annual School Election only. I am attaching a copy of our proposal that we submitted to the Secretary of State's office, along with all of the attachments. I didn't know if you would like copies available for the meeting on Monday? We completed the certification of the EA Tablets, Wi-Fi and verification of Voter information on Tuesday, March 18th. Please let me know if you have any questions or concerns.

Thank you,

Jennifer Price

Eva,

I spoke with Max and he said that you wouldn't mind sponsoring a Vote Center Ordinance for the Election Commission/ County Clerk. Karen has it scheduled for the March 30th County Services Comm meeting. I am attaching a copy of the Ordinance, as well as the proposed polling places for the Vote Centers. This will be for the 2015 Annual School Election Only. Please let me know if you have any questions. Thank you for being willing to sponsor this for us.

ORDINANCE NO. 2015-_____

BE IT ENACTED BY THE QUORUM COURT OF THE COUNTY OF WASHINGTON, STATE OF ARKANSAS, AN ORDINANCE TO BE ENTITLED:

AN ORDINANCE ESTABLISHING VOTE CENTERS IN WASHINGTON FOR ALL SCHOOL ELECTIONS IN 2015.

WHEREAS, pursuant to Arkansas Code Annotated Section 7-5-101 the County may establish by ordinance vote centers for elections; and,

WHEREAS, the Washington County Clerk has certified to the Quorum Court and the Secretary of State that the County has a secure electronic connection sufficient to prevent an elector from voting more than once and to prevent unauthorized access to a computerized registration book maintained by the County Clerk; and,

WHEREAS, it is the desire of the Washington County Election Commission and the County Clerk to establish duly authorized vote centers for all school elections in 2015.

NOW, THEREFORE, BE IT ORDAINED BY THE QUORUM COURT OF THE COUNTY OF WASHINGTON, STATE OF ARKANSAS:

ARTICLE 1. There are hereby authorized and established in Washington County vote centers for school elections in the County for 2015.

4:02 (2): EA Tablets or electronic poll books will be used at each location to verify voter registration. Washington County has 120 electronic poll books, all of which would be available for use on Election Day if needed. Each Vote Center will be supplied with 3 electronic poll books on Election Day. The remaining electronic poll books will be available for use in case of emergency or unexpected heavy turnout.

4:02 (3): I votronic Voting Machines (touchscreens) will be used at each location for casting votes. Each Vote Center will have a minimum of 2 touchscreens to a maximum of 5 touchscreens. All of Washington County's touchscreens are ADA compliant.

4:02 (4): All locations will use a Wi-Fi Hotspot provided by the Washington County Election Commission. Each Hotspot requires a password and only the EA Tablets will be connected to the hotspot. Only Election Officials will have the passwords for the Hotspots. The Wi-Fi available at the polling locations will be the backup if the Hotspot goes down, and for the locations without Wi-Fi, an additional Hotspot will be available if needed. Each location has been tested with the Hotspot to verify the strength of the signal. See **Attachment B** for certification of the electronic connection and voter information update. **Original filed with the County Clerk's office.**

4:02 (5): Paper ballots will be ordered based on the number of ballots cast in previous School Elections. The total number of ballots cast in a School Election is typically less than 4% of the total number of registered Voters. Washington County will be able to order a significant number of paper ballots for each School District to have at all of the Vote Centers. Each Vote Center will also be provided with 2 sample copies of each ballot style. For the 2015 Annual School Election the maximum number of ballot styles will be 13, which will easily be able to be displayed.

5.0 Equipment (Voting Machines)

5.01: All 171 touchscreens used have the capacity to hold every ballot style. For the 2015 School Election, 13 ballot styles will be used. Washington County has held off-site Early Voting, since 2008, which requires all touchscreens used to have the capacity to hold 151 ballot styles.

5.02: Washington County has 171 touchscreens and 3 650's. Each touchscreen has an office number, and each flashcard and peb used will be labeled according to the Vote Center and touchscreen it will be used in. A ballot accounting form detailing the number of ballots assigned to a Vote Center is included in their ballot box, along with a Totals Page which details spoiled, provisional ballots and the total number of Voters. When the Supervisors pick up their Election supplies, they sign a spreadsheet that details which touchscreens and EA Tablets are assigned to their Vote Center. After the polls close the Supervisors fill out the Ballot Accounting Form and Totals Page. The Supervisors return to the Courthouse to drop off the Election supplies and sign a duplicate spreadsheet detailing the equipment brought back to the Courthouse. On Election Night, the Coordinator and Programmer keep an accounting sheet off ballots cast. The information used is from the List of Electors and Totals page returned by the Supervisors, the results tapes from the touchscreens and the totals from the 650's. The number from the results tapes and 650's is compared to the number from the List of Electors. This number allows the Election Commission to verify that the total number of votes cast match the total number of Voters.

5.03: The County Clerk's Office (280 North College, Suite 300, Fayetteville, 72701) will hold Early Voting, only. The number of touchscreens used for Early Voting will be 3. These touchscreens will not be used on Election Day. The County Clerk's Office will not be used as a Vote Center on Election Day. 168 touchscreens will be available for use on Election Day.

5.04: Washington County has 171 touchscreens, 3 650's and 120 Electronic Poll books.

2015 Proposed Vote Centers (All polling places will be Vote Centers)

The number of registered Voters includes both Active and Inactive. The number of registered Voters assigned to each Vote Center would be the number if the polling place was not used as a Vote Center. The School District the polling place is located in is also listed, as this will likely determine

the majority of ballot styles cast at the vote center. The number of touchscreens assigned to each Vote Center will be 3. Projected number of Voters is based on 4% voter turnout.

In total for the School Election there will be 13 ballot styles. Touchscreens will be the primary method for voting. However paper ballots will be available in all ballot styles for Voters who insist on voting a paper ballot. The distribution of paper ballots will be based on the Vote Center and the School District. So for instance Prairie Grove Christian Church in Prairie Grove School District would receive the amount of paper ballots required by law for a regular polling place, with additional ballots from the remaining School Districts. 4% of the paper ballots cast from each school district will be distributed to each polling location.

On Election Night the votes cast from both Early Vote and Election Day will be tabulated at the Washington County Courthouse. Paper ballots will be tabulated on the 650's and the flashcards from the touchscreens will be used to tabulate electronic votes. Results will be by precincts based on the School District.

6.0 Equipment (Verifying Registration Records)

6.01: Washington County uses the EA Tablet Live System. The EA tablets are capable of instantaneously updating voter information. The EA tablets contain all the voter information from the County Clerk's database. See **Attachment B** for certification of the electronic connection and voter information update for the EA Tablets.

6.02: The EA Tablets use EA's Synergy Server to update Voter information. The ip address is 7.5126.74.1. The EA Tablets are an ASUS Transformer Pad TF700T. The program works on an Android platform. It also contains an SD card for additional back up.

6.03: Washington County has 120 EA Tablets. On Election Day each Vote Center will have 2 tablets to use for checking in Voters. Each Vote Center will also be provided with a 3rd fully charged tablet loaded with all the Election Day information, to be used in case of an emergency or heavier voter turnout than expected. The remaining 66 tablets will be ready and available if needed.

7.0 Maintenance and Use of Equipment

7.01: All Equipment used in the Vote Centers (touchscreens and EA Tablets) are properly maintained and kept up to date. All equipment will be tested before being sent to the Vote Center and maintained by Election Officials.

7.02: All Election Officials will be trained to operate all the Voting Equipment. Extra training will be required for all Election Officials operating the EA Tablets.

8.0 Testing and Backup of Equipment

8.02: L & A will be completed 7 days before Early Voting starts on all equipment used for the Annual School Election. Extra supplies will be sent to each polling location, to include extra RTAL paper.

8.03: Testing on EA Tablets will be completed 7 days before Early Voting starts. Testing will be in the same manner as **Attachment B** was done for certification.

9:00 Secure Electronic Connection

9.01: The EA Tablets will all be synced to EA's Synergy Server which transfers all voter data to the tablets. This will be verified before the polls open on Election Day, and the poll workers (Election Officials) will be trained to monitor the system during the day. The Synergy Server transfers all voter data to prevent a voter from voting more than once. Only Election Officials will have access to the tablets before and on Election Day.

9.02: All Vote Centers will use Hotspots provided by the Washington County Election Commission. The Wi-Fi in each location will only be used in case of an emergency. The Hotspots are secured by using WPA2, which requires a password to log on to. Only Election Officials will have access to the password.

9.03: All EA Tablets will require a password to login. Only Election Officials will have the password. All communication between the tablets and the Synergy Server is secured using SSL 2048 bit encryption. All data transferred between a tablet and the Synergy Server will be encrypted during transport over the internet. This is currently the strongest form of encryption available. The Hotspots are secured using WPA2 which provides "end to end" security.

10:0 Electronic/ Internet System Failure

Sufficient battery back-up and Wi-Fi for all locations will be available. All Supervisors will be provided with a county phone, with a list of contact information for Election Officials, County Clerk's office and Supervisors at the other Vote Centers. Each EA Tablet is preloaded with all the registered Voters eligible for the School Election. This list does not rely on the internet. Each location has blank addendum sheets if needed to enter in Voters. If the internet does go out for a time period at any location, Voters will still be entered in the EA tablets and once the internet is back up and working, the names will automatically load to all the other tablets at the Vote Centers.

11:0 Notifications to Voters

All polling locations will be Vote Centers for the Annual School Election. Washington County will use a notice in the paper, along with news stories concerning the Vote Centers from local TV and Radio Stations. We will have the School Districts to use their social media sites to also educate the Voters on the polling locations. It will also be posted on the Washington County web-site. We will post notices at any locations that will not be opened as the law requires.

12:0 Ordinance Required: See Attachment A

13:0 Provisional Ballots

All procedures will be followed for a Voter to cast a Provisional Ballots. Each Vote Center will have sufficient paper ballots from each ballot style for a Voter to cast a ballot from any School District.

14:0 Change of Vote Center Location

Washington County is only seeking to open Vote Centers for the 2015 Annual School Election at this time.

Subject: RE: E-fax project

Eva,

We are finishing up the cutover now. AT&T released the lines yesterday and the department is working though bugs and training with departments. This for both the e-fax and the VOIP project it will all be closed next week baring any issues.

Thanks for checking in.
