

Request for Interpretation
Mold Remediation - Proposal Number 2015-02

1. Clarification that Proposal Number 2015 -02 is only for Courthouse offices 206 and 303A, since the below grade rooms are still experiencing water intrusion. *Yes, specs state below grade is included*
2. What does "the county retains the right to control how demolition occurs" mean, and how does that affect the contractors means and methods? **see below*
3. Who will be responsible for collecting the post remediation samples, and is that cost to be included the contractors cost? *include w/bid*
4. What will be a considered any acceptable range for clearance samples?
5. Is the contractor responsible for defining their own scope? *no*
6. Will the county have a third party representative on site during the remediation activities, to better clarify the scope or reduce scope if little or no mold is found within the walls? *not planned at this time*
7. Will alternative methods of drying/dehumidification of the wall cavities be considered by the county, instead of demolition of the plaster walls? *yes*

2 the county wants any wood work removed to be capable of being reinstalled so it must be removed carefully.*
